

SARATH V S

Frontend Software Engineer · React.js · Vue.js

+91 9495330037 | sarathvs124@gmail.com | Kottayam, Kerala | LinkedIn Profile

PROFESSIONAL SUMMARY

Results-driven Frontend Engineer with 3+ years of experience delivering high-performance web applications for enterprise and consumer products. Proficient in React.js and Vue.js with a strong eye for UI/UX using Tailwind CSS. Experienced in REST API integration, full-stack development, and Agile collaboration. Proven track record building ERP systems, AI-powered tools, and client-facing platforms.

WORK EXPERIENCE

Software Engineer | **Teksalah** | Kochi, Kerala

October 2024 – Present

- Architected and developed ERP system modules using Vue.js with seamless Java backend integration via REST APIs, reducing manual workflow time.
- Designed and implemented responsive, pixel-perfect UIs using Tailwind CSS, improving cross-device usability and maintaining design consistency.
- Collaborated closely with backend engineers to optimize API contracts and ensure smooth data flow across complex ERP modules.

Software Engineer | **Innovature Labs** | Infopark, Kochi

July 2022 – March 2024

- Built and maintained multiple production web applications using React.js and Vue.js, ensuring 99%+ cross-browser compatibility.
- Optimized frontend performance through code splitting, lazy loading, and component memoization, achieving measurable improvements in load time.
- Actively participated in Agile ceremonies including sprint planning, daily standups, and peer code reviews, contributing to on-time delivery.

TECHNICAL SKILLS

Frontend: React.js, Vue.js, Next.js, Angular, JavaScript (ES6+), HTML5, CSS3

Styling: Tailwind CSS, CSS Modules, Responsive Design

Backend & APIs: Node.js, Django, Python, REST APIs, Java (integration)

Databases: PostgreSQL, MySQL

AI/ML Tools: YOLOv8, DeepFace, EasyOCR

Tools & Practices: Git, GitHub, Agile/Scrum, Code Review, REST API Design

KEY PROJECTS

Cummins Arabia – HSE Management ERP - Full-Stack Developer

Enterprise ERP platform for Health, Safety & Environment compliance, enabling real-time incident reporting, analytics dashboards, and regulatory tracking for Cummins Arabia.

Tech: Vue.js, Java, Tailwind CSS

Cummins Arabia – DOA Approval System - Full-Stack Developer

Digital Delegation of Authority (DOA) approval workflow system for Cummins Arabia, streamlining multi-level authorization processes, approval routing, and audit trail management across the organization.

Tech: Vue.js, Java

Waste Management System - Full-Stack Developer

Admin web application enabling intelligent waste management using deep learning. Integrated YOLOv8 model for automated detection and classification.

Tech: React.js, Django, YOLOv8

Face Detection & ID Card Verification (R&D) - *Full-Stack Developer*

Advanced biometric access control system using facial recognition and OCR-based ID verification, built for secure company entry management.

Tech: React.js, Python, Django, DeepFace, EasyOCR, YOLOv8

Task Management System - *Frontend Developer*

Collaborative task management application supporting team project tracking, prioritization, and progress monitoring.

Tech: Node.js, Vue.js

Houseboat Booking System (Freelance) - *Frontend Developer*

Contributed to a full-featured booking platform for a houseboat rental service, including availability calendars, booking flows, and user profiles.

Tech: Vue.js, Java

Construction Company Website (Freelance) - *Frontend Developer*

Designed and built a modern responsive website featuring project showcases, service listings, and contact forms.

Tech: React.js, Tailwind CSS

EDUCATION

Master of Computer Applications (MCA)

Marian College, Kuttikanam 2020 - 2022

Bachelor of Computer Applications (BCA)

St. George's College, Aruvithura 2017 - 2020

CORE STRENGTHS

Strong communicator and team collaborator · Problem-solver with attention to detail · Fast learner with adaptability to new technologies · Experience in Agile/Scrum environments
